

- lightweight
- cost-effective
- fire-resistant

UC^{FIBRE} R01 and UC^{FIBRE} R02: Advanced Fire-Resistant Fibre Optic Cables

The R01 and R02 cables are versatile and can be used for a variety of applications including tunnels or galleries. The cable, featuring corrugated steel tape armoring, is rodent-proof, making it highly durable and reliable. This cable is ideal for installation in ducts and on trays for indoor use, as well as for shorter outdoor applications.

- Certified to CPR classes C_{ca} and B2_{ca}
- Up to 120 minutes of data transmission during fire.
- Designed for both indoor and outdoor use, including tunnels and areas requiring high level of fire resistant and limited smoke generation solution.
- Features a halogen-free, flame-retardant FireRes[®] sheath and rodent-proof armoring.
- Ideal for high-safety applications where reliable communication is crucial.
