

# Chill out!

Our Arctic Mining cables will never freeze.

The planet's pathways

# Our Arctic Mining cables will never freeze.

With a specially developed inner and outer sheath material, our Arctic Mining cables are fit to operate in a fully flexible operation mode down to -50 °C. And even more important: without any limitation in the travelling speed, bending radii or tensile force required by your reeling, trailing or dredging application. Rest assured, our cables will stand steadfast as the arctic winds cover everything in ice.

## Hardwearing

Superior impact and abrasion resistance, in cold as well as in warm ambient conditions.

## Great longevity

The mix of quality components increase the service life, even in very cold environments.

## Flexible

Very pliable and easy to work with, also in low temperatures.

Continues to work  
flawlessly down to

**-50°C**

### Impervious

Resistant to oil, ozone,  
UV, moisture and water.

### Top performing

First-rate mechanical and  
electrical characteristics.

### Double function

Provides both electricity  
and digital information.

## LV REELING

**CORDAFLEX (SMK)**  
(N)SHTOEU

0.6/1 kV

Flexible low voltage reeling cable for power supply of large material handling machines, e.g. gantry cranes or bulk-handling. Suitable for application under high and very high mechanical stresses. Available with integrated fibre optics and/or shielded control cores.

- Excellent **impact** and **abrasion resistance** in cold and warm conditions
- Outstanding flexibility** also at very low temperatures
- Resistant to oil, ozone, UV, moisture and water**
- Superior tensile load capacity of **30 N/mm<sup>2</sup>** on the conductors
- Winding speed: **240 meters per minute**

[More info](#)

## LV REELING

**TROMMELFLEX-M-PUR**  
D2X11Y

0.6/1 kV

TROMMELFLEX-M-PUR is the best reeling cable for underground mining and tunneling equipment. It is specially designed for frequently changing dynamic loads such as reeling operations including drilling machines, scoops and LHD's.

- Suitable for **underground reeling operations** at the speed of 60 m/min
- Equipped with **flame retardant, halogen-free polyurethane** inner and outer sheath for rough environments
- Highly flexible and lightweight**
- Very short length of lay for **greater reeling performances**

[More info](#)

## VARIABLE FREQUENCY DRIVES

**PROTOMONT EMV-FC**  
(N)SSHCOEU

0.6/1 kV

The cables are suitable for fixed installation and flexible operation as motor power supply cables for Variable Frequency Drives and Frequency Converter controlled drives in the mining industry, on construction sites and similar applications, for laying on material handling equipment (even with continuous movement such as in cable booms or as connection between upper and lower car).

- Outstanding EMC shielding** thanks to the metallic screen with >90% coverage
- Available as **single** and **multi-core** version
- Water resistant** up to a depth of 500 m
- Resistant to oil, ozone, UV and moisture**

[More info](#)

## MV REELING

**PROTOLON (M)**  
R-(N)TSCGEWOEU

3.6/6 – 20 kV

For connection of large material handling machines such as excavators, dumpers, mobile crushers in open-cast mines. Flexible MV reeling cable suitable for high mechanical stresses in conjunction with mono-spiral reels and cylindrical reels, suitable for fully flexible operation.

- Available with **integrated fibre optics and/or shielded control cores**
- Reeling speed: **120 meters per minute**
- Resistant to oil, ozone, UV, moisture and water**
- Outstanding flexibility in cold and warm conditions**

[More info](#)

## MV TRAILING

### PROTOLON(SB)

NTSCGEWOEU

3.6/6 – 20 kV

Medium voltage power supply or connection cable for large material handling machines, e.g. excavators in open-cast mines subject to extremely high mechanical stresses in which abrasion and chaffing stresses are to be expected in trailing operation, suitable for fully flexible operation.

- **Robust** rubber outer sheath
- **Tough** against **abrasion and tearing**
- **Resistant** to **UV, ozone, oil and moisture**

[More info](#)

## MV TRAILING

### TENAX-SAS

NTSCGEWOEU

3.6/6 – 20 kV

Medium voltage power supply cable to large mobile equipment in mines subject to extremely high mechanical stresses. Trailing cable for use with shovels and draglines in trailing and reeling applications for fully flexible operation.

- **Very robust** rubber outer sheath
- **Resistant** to **UV, ozone, oil and moisture**
- **Tough** against **abrasion and tearing**
- Suitable for **trailing and reeling application**

[More info](#)

## MV TRAILING

### TENAX-PUR

(N)TSCGEH3S

3.6/6 – 20 kV

Medium voltage trailing cable with PUR outer jacket, for the power supply to large mobile equipment in mines, such as shovels and draglines, suitable for fully flexible operation.

- **Extremely robust** PUR outer sheath
- **Resistant** to **UV, ozone, oil and moisture**
- **Tough** against **abrasion and tearing**
- **Polyurethane** outer sheath available in **orange, yellow or other colours**

[More info](#)

## MV TRAILING

### TENAX-LUMEN

(N)TSCGEH3S

3.6/6 – 20 kV

The TENAX-LUMEN is intended as trailing cable for the power supply to large mobile equipment in mines, such as shovels and draglines. Especially intended for application where, to guarantee the safety of personnel and equipment, the cable must be visible in the dark.

- Brightly **self-luminous** in dark areas
- Excellent **impact** and **abrasion resistant**
- **Resistant** to **UV, ozone, oil and moisture**
- **Transparent polyurethane** outer sheath
- Active **illuminating elements** inside

## Applications overview

# Open cast

Application group	Product name	Designation	Description
<b>REELING CABLES</b>			
	CORDAFLEX (SMK)	(N)SHTOEU	LV reeling cable
	PROTOLON (M) with FO	R-(N)TSCGEWOEU	MV reeling cable with integrated fibre optic
	PROTOLON(IQ)	(N)TSKCGEWOEU	MV reeling cable with embedded sensor
<b>MEDIUM VOLTAGE TRAILING CABLES</b>			
	TENAX-SAS	NTSCGEWOEU	MV trailing cable abrasion and cold resistant (-50°)
	PROTOLON(SB)	NTSCGEWOEU / NTSCGECEWOEU	MV trailing cable with or without metallic screen
	TENAX-LUMEN	(N)TSCGEH3S	MV trailing cable with self-illuminating function
	TENAX-PUR	(N)TSCGEH3S	MV trailing cable abrasion and cold resistant (-50°)
<b>MEDIUM VOLTAGE DREDGING CABLES</b>			
	PROTOLON(ST).../3E	NTSCGEWOEU	MV water resistant cable with individual concentric earth
	PROTOLON(ST)	NTSCGEWOEU	MV water resistant cable with earth into interstices
<b>CABLES FOR SEMI-FLEXIBLE INSTALLATION</b>			
	PROTOLON(M)	F-(N)TSCGEWOEU	MV cable for semi-flexible use
	PROTOMONT	NSSHOEU	LV cable for semi-flexible use, water resistant
	PROTOMONT	NSHXOEU	LV cable for semi-flexible use, LSOH
	PROTOMONT(MT)	(N)SSHOU	LV cable for semi-flexible use, with optimized dimensions
	PROTOMONT EMV-FC	(N)SSHCOEU	LV screened cable EMC compliant for VFD
	PROTOMONT EMV-FC (-50°C)	(N)SSHCOEU	LV screened cable EMC compliant for VFD, cold-resistant
<b>MEDIUM VOLTAGE SINGLE CORE CABLES</b>			
	FELTOFLEX	NTMCWOEU	MV single-core cable with cold removable semi-con. layer
	PROTOLON	NTMCGCWOEU	MV single-core cable
	PROTOLON(M)	(N)TMCGCWOEU	MV single-core cable with optimized dimensions
<b>CONTROL AND SIGNALLING CABLES</b>			
	OPTOFLEX(M)	G62.5/125, G50/125, E9/125	Flexible fibre optic cable, also suitable for underground installation
	PROTOMONT(MSR)	2YSLGCGOEU	Rubber sheathed screened data cable, also suitable for underground installation

## Applications overview

# Underground/Tunneling

Application	Product name	Designation	Description
LOW AND MEDIUM VOLTAGE SHEARER CABLES			
	PROTOMONT(V)	NSSHCGEOEU	LV chain cable for shearers with double screen techn. and cold removable semi-con. layer
	PROTOMONT(V)	NTSKCGECWOEU	MV chain cable for shearers with double screen techn. and cold removable semi-con. layer
	PROTOMONT(VO)	(N)TSKCGEWOEU	MV chain cable for shearers with single screen techn. and cold removable semi-con. layer
	TENAX-CTE	NSSHKGEOEU	LV chain cable for shearers with single screen techn. and semi-con. inner sheath
	PROTOMONT(Z)	NSSHKGEOEU	LV trailing cable for shearers with double screen techn., cold removable semi-con. layer and steel armour
UNDERGROUND REELING CABLES			
	TENAX-LK	NTSKCGEWOEU	LV reeling cable with single screen techn. and semi-con. inner sheath
	PROTOMONT(S)	(N)SSHCGEOEU	LV reeling cable with single screen techn. and cold removable semi-con. layer
	CORDAFLEX(S)	NSHTOEU	LV reeling cable for fast-moving LHDs, rubber sheathed
	TROMMELFLEX M-PUR	D2X1Y	LV reeling cable for slow-moving LHDs, PUR sheathed, halogen-free
TBM REELING			
	PROTOMONT TBM	(N)TSCGECWOEU	MV reeling cable for TBMs, with double screen techn. and cold removable semi-con. layer
	PROTOMONT TBM	(N)TSCGECWHX-OEU	MV reeling cable for TBMs, with double screen techn., cold removable semi-con. layer, LSOH
	TENAX-HTT	(N)TSCGEGWOEU	MV reeling cable for TBMs, with single screen techn.
CABLES FOR SEMI-FIXED INSTALLATION IN UNDERGROUND MINES AND TUNNELS			
	PROTOMONT (Festoon)	NTSKCGECWOEU	MV cable for semi-flexible use, with double screen techn. and cold removable semi-con. layer
	SUPROMONT	(N)3GHSSYCY	MV armoured cable for fixed installation, with double screen techn. and cold removable semi-con. layer
	SUPROMONT	(N)3GHSHCH	MV armoured cable for fixed installation, with double screen techn. cold removable semi-con. layer, LSOH
	PROTOMONT(MT)	(N)SSHOU	LV cable for semi-flexible use, with optimized dimensions
	PROTOMONT ..3E	NSSHOU	LV cable for semi-flexible use with individual concentric earth
	PROTOMONT EMV-FC	(N)SSHCOEU	LV screened cable EMC compliant for VFD
	PROTOMONT EMV-FC (-50°C)	(N)SSHCOEU	LV screened cable EMC compliant for VFD, cold-resistant
